Internship – Manufacturer Services Analytics and Support

DISCOVER YOUR FUTURE IN SHAPING HEALTHCARE DELIVERY

Would you like to be on the front lines of improving patients’ lives and shaping healthcare delivery? At AmerisourceBergen®, our mission is to deliver innovative products and services that drive quality and efficiency in pharmaceutical care. We are currently looking for young talents to join our intern team with individuals who share our mission and want to be part of the pharmaceutical services industry.

AmerisourceBergen is one of the world's largest pharmaceutical services companies, currently ranking 11th on the Fortune 500 and with over $147 billion dollars in annual revenue.

AmerisourceBergen’s Switzerland office is a Global Manufacturer Services platform that provides commercialization strategies, data innovation, and relationship management to ensure the mutual success of Manufacturer Partners and AmerisourceBergen.

Position Summary

Under broad direction of the Manufacturer Services group, the Manufacturer Services Analytics Intern will gain a working knowledge and support the daily business processes and execution of this team. The Manufacturer Services Analytics Intern will provide analytics support to all areas of the Manufacturer Services team, including the creation of business reports and other data analytics to provide insight and understanding of the Generics Pharmaceutical market in the United States. This role provides a unique opportunity to learn about the Generic Pharmaceutical market, as well as the Wholesale Distribution and overall Healthcare markets in the United States.

Rotations and Areas of Focus:

- Provide ongoing support on initiatives in specific functional areas to meet department and business objectives.
- Assist as needed on ad hoc projects that may require analysis and data gathering; present findings and results to manager or project lead.
- Collaborate with other Associates to gather information and share recommendations.
- Meet deliverables set forth by the rotational area in a timely manner.
- Ensure data integrity and accuracy when compiling and presenting information.
- Perform related duties as assigned.

Qualifications

Experience and Education Requirements

- Currently pursuing, or recently obtained a degree in the following fields: business administration, mathematics, finance or economics.
